What is it?

- Y.A.N.A. is a program designed for the elderly, disabled persons, or the homebound that live alone. This program will help to insure a sense of security and well being with the following list of services provided:

- Telephone Reassurance: These calls will provide a sense of security and caring and will help to determine the welfare and safety of those enlisted in the program.
- Friendly Visit Program: Concerned, trained volunteers will make short weekly visits which will help to enhance the quality of life and to access, face to face, the person's general welfare. The volunteers may be able to identify any needs for special services available in the community.
